

## **Welcome to All Terrain Introweekend 2020!**

**Follow the RIVM guidelines at all times.** You can read them at [rivm.nl/en/novel-coronavirus-covid-19](https://rivm.nl/en/novel-coronavirus-covid-19).

**Keep more than 1.5m distance at all times**, there is more than enough space at the campsite. There is also no reason you cannot keep >1.5m between you during all the outdoor sports activities, so please do so!

### **Disinfect your hands often.**

During meals, you are required to wait in an indicated line, disinfect your hands, and for dinner you will be served by one of the organising committee.

If you for some reason need to be transported by vehicle, all occupants of the car will be required to wear a mask.

We are able to have one campfire: this is not large enough for a group of thirty to stand around. There will be indicated spots to sit around the campfire, please respect these. If necessary, we will make a rotation so everyone can enjoy the campfire.

There will be another group on a different field at the campsite. Please minimize close contact with them to limit the possible spread of COVID-19.

Please limit the number of people in the toilet block at once to two (including the other group present at the campsite, as we are sharing the toilet block).

The campsite does have some neighbours, and is in a protected area. We are required to limit noise after 2300 (if you still have the energy to be loud by then, you didn't do enough outdoor sports).

There is no singing or shouting in groups during the weekend.

**If you show any symptoms of COVID-19 (coughing, sore throat, fever etc) prior to the weekend, do not join the weekend. All Terrain's No Show Policy will not apply in this case.**

**If you develop any of the above symptoms during the weekend, talk to one of the organising committee (Olivia, Guus, Suzan, Raymond or Steffie), and we will organise your return home to Eindhoven.**

We expect all of you to be responsible and act appropriately regarding COVID-19.

And, have fun!
